### English Express Beginner Workbook

eBook | PDF (16MB) | 192 pages | Individual or Team Licence

The English Express Beginner Workbook is a topic-based workbook for adult learners of English. It is ideal for learners at beginner level. They may already know the letters of the alphabet, say numbers up to 10, sight read a few words, and greet people. But they may not yet be able to interact in everyday situations, such as buying a coffee or making a medical appointment.

There are nine topics in the book which present language in the context of everyday situations and texts. Each topic is accompanied by several animated videos, which help the learner develop their listening and pronunciation. The videos are conveniently hosted online, and there is no additional fee to access the videos.

There are 36 chapters in total. Pick and choose any chapter to fit into your learning program. Do them in any order.

## What is a team licence?

A team licence allows all teachers at one site of a teaching institution to use the book. Teachers can print the lessons for their students or share them electronically. It can be uploaded to an intranet or content management system, as long as it is not accessible to the public. The institution's name will appear in the footer of the book. The licence never expires, so the payment is just one-off. Visit [englishexpress.com.au/termsfuse](http://englishexpress.com.au/termsfuse) to read the full terms of use.

**Customised licence for multiple sites = the fee varies depending on the number of sites; discounts apply**

If you need a licence that covers multiple sites or an entire region, contact the author to arrange a customised licence. Refer to the discount schedule to find out the total cost. There are other benefits of getting a customised licence. For example, you don't need to get a new licence if you open up new sites in your region. Your existing licence will cover it.

## FAQs

### Are the books Australian?

Yes, the books were created in Australia. The **Beginner Workbook** uses Australian conventions for money, measurement, addresses, etc. However, if you are in another country, the workbook may still be very useful for you. The teacher notes explain all the Australian conventions used in the workbook. The content in **My Busy Day** is applicable to almost every country.

### What curriculum are the books aligned to?

The books are not aligned to any particular curriculum. They can be used in any course that teaches English to adults at beginner level. They will be a great supplement to your existing syllabus. So far, they have been successfully used in a range of courses, including CSWE and EAL.

### How do teachers and students access the workbook?

The college will receive a PDF. After that, it is up to the college to decide how to distribute it. (The **Beginner Workbook** will be provided as a full book and also as nine separate booklets for each chapter. **My Busy Day** will be provided as one full book only.)

### Can we print the lessons as booklets for our students?

Yes, you can print out each chapter of the books and present it to students as a booklet. You can do this with your own printer or an external printing service. You must leave the licensee information in the footer, and you must ensure that the booklets are only distributed within sites covered by the licence.

### Can we convert the books into eLearning?

It depends. You can embed the videos into your own eLearning tasks. But you can't use the images in the workbook to create new tasks. That's because you don't have a licence to re-use those images (they are owned by the photographer or stock image supplier). If you want to re-use those images to create another new resource, you will need to pay the stock image supplier. If you have any questions, or if you are interested in creating eLearning, you can contact the author to discuss it.
